EXC-B65ARL LED Flood Light

Application Environment：
Indoor
Outdoor

Description

EXC-B65ARL series consists of full-color large-power spotlights with high-strength aluminum-alloy housing specially designed by EXC for outdoor landscape lighting. Each light is a separate lighting pixel, and each pixel can realize 8/16bit grades gray scale changing. It could be used for illumination in specific areas or landscape wash lighting, applicable on building facades, bridges, stages, etc.

Features

- The newest generation technology: DMX512 parallel bus design
- High strength aluminum and low thermal resistance path cooling design
- High reliability modularization design
- Outdoor lighting protection and electrostatic discharge (ESD) protection design
- Load safety design
- Projection distance: 3m
